FOR EXISTING INVESTOR USE ONLY. OWL ROCK CAPITAL CORPORATION II IS NOW CLOSED TO NEW INVESTORS.

An Investment Methodology Designed for Changing Markets

92%
Senior Secured Loans

Collateralized by a borrower's assets and have the highest payment priority in a borrower's capital structure[7]

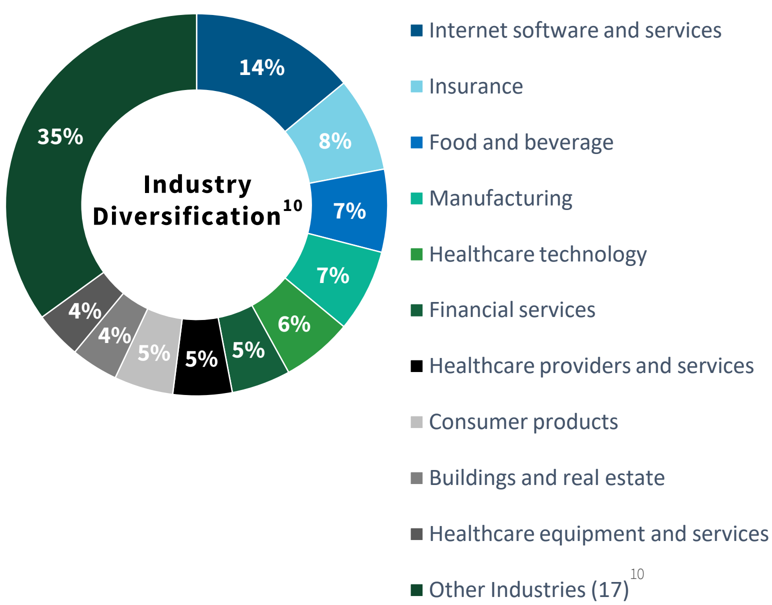
99%
Floating Rate Debt Investments

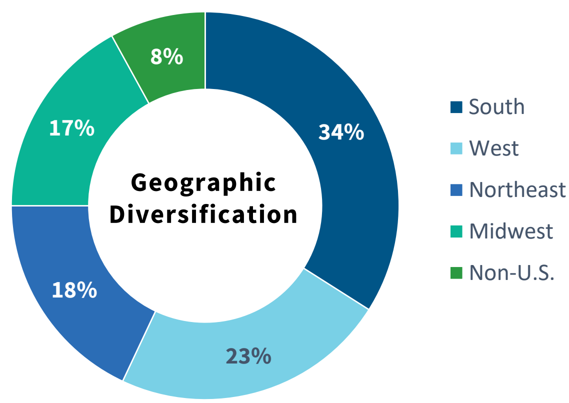
When interest rates rise, the interest rate on a floating rate loan also rises, which may provide investors with the potential for a higher income stream[8]

$770M
Middle Market Business

ORCC II's borrowers are middle market businesses with a weighted average annual revenue of $770 million[9]

A Diversified Portfolio That Seeks to Mitigate Risk





Footnotes

1. Business development companies (BDCs) were created by Congress in 1980 to encourage the flow of capital to small- and medium-size American companies to help them grow. They provide investors with exposure to investments in predominantly private companies, which are typically difficult to access.
2. As of December 31, 2022. Assets Under Management ("AUM") refers to the assets that we manage and are generally equal to the sum of (i) net asset value ("NAV"); (ii) drawn and undrawn debt; and (iii) uncalled capital commitments.
3. As of December 31, 2022. Based on fair value and shown net of unfunded commitment amounts. Fair value is determined in good faith by ORCC II's board of directors and reviewed by the Adviser's valuation committee. Valuations may change over time.
4. The 4Q22 distribution rate shown is calculated by annualizing the declared distributions per share and dividing by the most recently published Net Asset Value per share as of December 31, 2022. The annualized distribution rate shown may be rounded. The payment of future distributions is subject to the discretion of ORCC II's board of directors and applicable legal restrictions, therefore there can be no assurance as to the amount or timing of any such future distributions. Distributions are not guaranteed. Up to 100% of distributions have been funded and may continue to be funded by the reimbursement of certain expenses that are subject to repayment to the Adviser of ORCC II. Such waivers and reimbursements by the Adviser may not continue in the future. For the quarter that ended on December 31, 2022, there was no expense support recoupment from offerings proceeds. The Adviser did not provide expense support during 4Q22. The repayment of amounts owed to the Adviser will reduce the future distributions to which investors would otherwise be entitled.
5. Returns reflect reinvestment of distributions and the deduction of ongoing expenses that are borne by investors, such as management fees, incentive fees, interest expense, offering costs, professional fees, director fees and other general and administrative expenses. An investment in ORCC II is subject to a maximum upfront sales load of 5% of the offering price, which will reduce the amount of capital available for investment. Operating expenses may vary in the future based on the amount of capital raised, the Adviser's election to continue expense support, and other unpredictable variables.
6. Compounded weekly through the termination of ORCC II's offering and compounded monthly thereafter.
7. Collateral securing any loan may lose some or all its value over time, which could have adverse consequences on ORCC II, including loss of principal. Data represents entire portfolio.
8. Floating rate loans are subject to risk factors, including credit risk, liquidity risk and interest rate risk and floating rate loans can lose significant value. Percentage represents ORCC II's debt investments.
9. Refers to companies with EBITDA between $10 million and $250 million annually and/or annual revenue of $50 million to $2.5 billion at the time of investment. Investing in privately held middle market companies presents certain challenges and risks, including the lack of available information and the fact that these companies are often rated below investment grade by rating agencies or would be rated below investment grade if they were rated. Excludes certain investments that fall outside our typical borrower profile. Figure represents weighted averages of 83.8% of ORCC II's debt portfolio.
10. Other industries include Aerospace and defense (3%), Distribution (3%), Specialty retail (3%), Business services (3%), Transportation (3%), Chemicals (3%), Leisure and entertainment (3%), Professional services (2%), Household products (2%), Automotive (2%), Containers and packaging (1%), Asset based lending and und finance (1%), Human resource support services (1%), Education (1%), Oil and gas (1%), Advertising and media (<1%), and Infrastructure and environmental services (<1%). Diversification will not guarantee profitability or protection against loss.

Risk Factors

An investment in Owl Rock Capital Corporation II ("ORCC II") is speculative and involves a high degree of risk, including the risk of a substantial loss of investment, as well as substantial fees and costs, all of which can impact an investor's return. The following are some of the risks involved in an investment in ORCC II's common shares; however, an investor should carefully consider the fees and expenses and information found in the "Risk Factors" section of the ORCC II prospectus before deciding to invest:

- You should not expect to be able to sell your shares regardless of how we perform and you should consider that you may not have access to the money you invest for an indefinite period of time. An investment in shares of our common stock is not suitable for you if you need access to the money you invest.
- We do not intend to list our shares on any securities exchange for what may be a significant time after the first closing of this offering, and we do not expect a secondary market in our shares to develop. As a result, you may be unable to reduce your exposure in any market downturn. If you are able to sell your shares before a liquidity event is completed, you will likely receive less than your purchase price.
- We have implemented a share repurchase program pursuant to which we intend to continue to conduct quarterly repurchases of a limited number of outstanding shares of our common stock. Our board of directors has complete discretion to determine whether we will engage in any share repurchase, and if so, the terms of such repurchase. We intend to limit the number of shares to be repurchased in each quarter to the lesser of (a) 2.5% of the weighted average number of shares of our common stock outstanding in the prior 12-month period and (b) the number of shares we can repurchase with the proceeds we receive from the sale of shares of our common stock under our distribution reinvestment plan. While we intend to continue to conduct quarterly tender offers as described above, we are not required to do so and may suspend or terminate the share repurchase program at any time.
- Distributions on our common stock may exceed our taxable earnings and profits, particularly during the period before we have substantially invested the net proceeds from our public offering. Therefore, portions of the distributions that we pay may represent a return of capital to you. A return of capital is a return of a portion of your original investment in shares of our common stock. As a result, a return of capital will (i) lower your tax basis in your shares and thereby increase the amount of capital gain (or decrease the amount of capital loss) realized upon a subsequent sale or redemption of such shares, and (ii) reduce the amount of funds we have for investment in portfolio companies. We have not established any limit on the extent to which we may use offering proceeds to fund distributions.

Risk Factors – Continued

- Distributions may also be funded in significant part, directly or indirectly, from (i) the waiver of certain investment advisory fees, that will not be subject to repayment to our Adviser and/or (ii) the deferral of certain investment advisory fees that may be subject to repayment to our Adviser and/or (iii) the reimbursement of certain operating expenses, that will be subject to repayment to our Adviser and its affiliates. Significant portions of distributions may not be based on investment performance. In the event distributions are funded from waivers and/or deferrals of fees and reimbursements by our affiliates, such funding may not continue in the future. If our affiliates do not agree to reimburse certain of our operating expenses or waive certain of their advisory fees, then significant portions of our distributions may come from offering proceeds or borrowings. The repayment of any amounts owed to our affiliates will reduce future distributions to which you would otherwise be entitled.
- We have a limited operating history and we have not identified specific investments that we will make with the proceeds of this offering, so we may be considered a blind pool because an investor may not have the opportunity to evaluate historical data or assess future investments prior to purchasing our shares.
- The payment of fees and expenses will reduce the funds available for investment, the net income generated, the funds available for distribution and the book value of the common shares. In addition, the fees and expenses paid will require investors to achieve a higher total net return in order to recover their initial investment. Please see ORCC II's prospectus for details regarding its fees and expenses.
- We intend to invest in securities that are rated below investment grade by rating agencies or that would be rated below investment grade if they were rated. Below investment grade securities, which are often referred to as "junk," have predominantly speculative characteristics with respect to the issuer's capacity to pay interest and repay principal. They may also be illiquid and difficult to value.

Important Information

Unless otherwise indicated, the Report Date referenced herein is December 31, 2022.

Past performance is not a guide to future results and is not indicative of expected realized returns.

Assets Under Management ("AUM") refers to the assets that we manage and are generally equal to the sum of (i) net asset value ("NAV"); (ii) drawn and undrawn debt; and (iii) uncalled capital commitments.

This presentation contains proprietary information regarding Blue Owl Capital Inc. ("Blue Owl"), its affiliates and investment program, funds sponsored by Blue Owl, including the Owl Rock Funds, Dyal Funds and the Oak Street Funds (collectively the "Blue Owl Funds") as well as investment held by the Blue Owl Funds. This presentation and the information contained in this presentation may not be reproduced or distributed to persons other than the recipient without express permission from Blue Owl.

The views expressed and, except as otherwise indicated, the information provided are as of the report date and are subject to change, update, revision, verification, and amendment, materially or otherwise, without notice, as market or other conditions change. Since these conditions can change frequently, there can be no assurance that the trends described herein will continue or that any forecasts are accurate. In addition, certain of the statements contained in this presentation may be statements of future expectations and other forward-looking statements that are based on the current views and assumptions of Blue Owl and involve known and unknown risks and uncertainties (including those discussed below) that could cause actual results, performance, or events to differ materially from those expressed or implied in such statements. These statements may be forward-looking by reason of context or identified by words such as "may, will, should, expects, plans, intends, anticipates, believes, estimates, predicts, potential or continue" and other similar expressions. Neither Blue Owl, its affiliates, nor any of Blue Owl's or its affiliates' respective advisers, members, directors, officers, partners, agents, representatives or employees or any other person (collectively the "Blue Owl Entities") is under any obligation to update or keep current the information contained in this document.

This presentation contains information from third party sources which Blue Owl has not verified. No representation or warranty, express or implied, is given by or on behalf of the Blue Owl Entities as to the accuracy, fairness, correctness or completeness of the information or opinions contained in this presentation and no liability whatsoever (in negligence or otherwise) is accepted by the Blue Owl Entities for any loss howsoever arising, directly or indirectly, from any use of this presentation or its contents, or otherwise arising in connection therewith.

All investments are subject to risk, including the loss of the principal amount invested. These risks may include limited operating history, uncertain distributions, inconsistent valuation of the portfolio, changing interest rates, leveraging of assets, reliance on the investment advisor, potential conflicts of interest, payment of substantial fees to the investment advisor and the dealer manager, potential illiquidity, and liquidation at more or less than the original amount invested. Diversification will not guarantee profitability or protection against loss. Performance may be volatile, and the NAV may fluctuate.

Performance Information: Where performance returns have been included in this presentation, Blue Owl has included herein important information relating to the calculation of these returns as well as other pertinent performance related definitions.

This presentation is for informational purposes only and is not an offer or a solicitation to sell or subscribe for any fund and does not constitute investment, legal, regulatory, business, tax, financial, accounting, or other advice or a recommendation regarding any securities of Blue Owl, of any fund or vehicle managed by Blue Owl, or of any other issuer of securities. Only a definitive offering document can make such an offer.
